

Jimsonweed, Datura stramonium L. - another species, Datura metel L., is similar to D. innoxia but is glabrous and has very short capsule spines. This ... considered a problem weed should perhaps be sought in the erratic germination of its seeds over a number of years, ... S. Satina, and J. Rietsema, eds. 1959. Blakeslee: The Genus Datura. Chron. Bot. Vol. 20. Ronald Press Co ... **the genus Datura: from research subject to powerful ...** - the genus Datura: from research subject to powerful hallucinogen ... today, Datura (mainly the species stramonium) can be found all over North America as a roadside ... was conducted in the early 20th century by Albert F. Blakeslee, who spent most of his career using the **new hybrids from incompatible Datura through media 1** - new hybrids from incompatible crosses in Datura. Liam D. Turner. Physical Biochemistry: Dr. Through Culture of Excised Embryos on Malt David I. Hitchcock 346 Media: Dr. Albert F. Blakeslee and Sophie Special Articles: Satina ... 331 suppression of growth of the brown-pearce tu.m.or **by 3cvr Richard King - University of Maryland** - by 3cvr Richard King hi ... extensive investigations in Datura, Oenothera, and Zea* the problem of the origin of species, or phylogeny, it seems, should be dealt with separately in each genus; ... found in Datura (Blakeslee, 1922), Prunus (Okabe, 1928), Iris (Longley, 1928) (Kazoa, 1928) Betula (Woodworth, 1929), **reprinted from the American Journal of Botany, no. October**, - periclinal chlorenchyma in Datura in relation to development and structure (a) of the style and stigma (b) of ... Datura . was given in a recent paper (Satina and Blakeslee, 1913). The development and structure of the ovules will be discussed in a ... tors closely related to the problem of the nature of the carpel. More attention should ... **haploids and doubled haploids in plant breeding - Intech** - spontaneous development of haploid plants has been known since 1922, when Blakeslee first described this phenomenon in Datura stramonium (Blakeslee et al., 1922); this was subsequently followed by similar reports in tobacco (Nicotiana tabacum), wheat (Triticum aestivum) and several other species (Forster et al., 2007). **1. The discovery of anther culture technique for the ...** - since the first "natural" haploid plant was discovered in Datura stramonium by Blakeslee and his co-workers, but particularly Bergner (Blakeslee et al., ... crosses attempted between other species of Nicotiana. Gerassimova (1939) ... another problem that attracted my attention was the control of meiosis. I felt that, employing the tissue ... **received: May 1962 - Tandfonline** - described by Blakeslee et al. (1922) in Datura stramonium though the first record ... problem of haploidy up to that period. This subject has also received partial attention ... species and the polyploids, derived from the species which are already at a polyploid level. Cooper and Rieman (1958) and ... **hypothesis mongolism and sex: a common problem of cell ...** - carried out by Blakeslee on a flowering plant, the Jimson weed, Datura stramonium (see Avery, Satina, and Rietsema, 1959). This species has 12 pairs of chromosomes and all 12 trisomics have been produced and analysed. Each one was distinguishable by specific morphological features. Moreover, each one was slower in growth than **aspects of chromosome manipulation: a resume*** - aspects of chromosome manipulation: a resume* ... chromosomes as were obtained later in the trisomics of Datura stramonium (Blakeslee and Belling, 1924) and subsequently in a series of other plant species. In this symposium we have heard about trisomic tomatoes (Rick and Khush). Now it is also known that the unbalance ... **enhancement of androgenesis by abiotic stress and other ...** - enhancement of androgenesis by abiotic stress and other pretreatments in major crop species ... nature was first reported by Blakeslee et al. [5] in Datura stramonium L. (Jimson weed). ... **corolla tube formation in four species of Solanaceae** - an important role in corolla tube formation. However, detailed studies on this problem have been few in number, and further studies are needed. This report presents a comparative study on the development of the corolla tube in four species of Solanaceae. **change in number - rd.springer** - species, but the new one still closely resembles the original parent. The problem may be even more ... plants as well. A.F. Blakeslee and collaborators as early as 1937, were able to produce a series of 12 plants in Datura, each having one of the chromo ...
